

JD Photo Data Environmental Policy

The services of JD Photo Data as a company, include the supply of Precision Photo-Tools, Photo Masks, Bare Printed Circuit Boards, Agfa Film products and Scanning Services.

JD Photo Data recognises that the discipline of environmental management is an integral part of its management function. The company views this as a primary responsibility and to be the key to good business in adopting appropriate Environmental standards.

The Directors and Management of the Company operate under the control of a documented, implemented and maintained Management System. The structure of this Management System is defined in the JD Photo Data Quality & Environmental Manual.

It is our policy to seek to operate and comply with the requirements of BS EN ISO 14001, and to implement and operate fully through registration.

It is our policy to operate and comply with the requirements of BS EN ISO 14001:2015, to implement and operate fully through registration and annual management review for continuing suitability and improvement of our Environmental Management System.

To support these requirements, we have made commitments to:

- Reduce the environmental impacts of our activities
- Adopt a forward-looking view on business decisions, which may have positive Environmental impacts
- Work closely with our customers and suppliers to establish the highest Environmental Standards
- Comply with all relevant environmental legislation and compliance obligations related to the environmental aspects of our operations
- Prevent pollution arising from our activities and to provide protection of the environment through measurement and examination of the impact of the JD Photo Data products and processes
- Communicate our Environmental Objectives and their performance throughout the company and to relevant interested parties.
- To ensure that activities are safe for employees, associates, subcontractors and others
- Train and develop our staff in the needs and responsibilities of Environmental Management
- Follow a concept of continual improvement and make best environmental use of our resources

It is our belief that, in operating to BS EN ISO 14001 requirements and through continued assessment, that we will be able to sustainably improve the growth and performance to fulfil the requirements of our clients and industry.

Responsibility for upholding this policy is truly Company-wide under the guidance and with the assistance of Company Directors and the Quality Manager, who encourage the personal commitment of all staff to address environmental improvement as part of their skills.

JD Photo Data management are committed to assuring that this policy is implemented, communicated and understood at all levels of the business and is available to relevant interested parties
